

# Exciting Things Are Happening at Liberty Traditional!

## New Playground

Recreation is an important part of a child's life and Liberty Traditional is creating a new playground for students. Within a spacious play space, students will find a new recreational structure including several decks, two single wave slides and a double wave slide, a curly climber, and a wild rung climber. All metal parts will be coated in plastisol, making them softer and safer. The playground is estimated to be installed by mid-second quarter.

## New Basketball Courts

In addition to the new playground, we have also added new basketball courts for all students to enjoy.

**We look forward to these new campus improvements. Stay tuned for more updates from Liberty!**
